

## Government

### Supplying the Nation's Leaders

Mansfield provides fuel services for over 726 school districts, 546 counties, 326 cities, 693 state delivery locations and numerous transit authorities across the United States. We offer both "As Needed" pricing, as well as OPIS based or fixed pricing for your fuel needs. With fuel supplies throughout the continental United States many government agencies have come to rely on Mansfield for their institutional supply needs.

### Fuel Management Solutions

Through our fuel services division, we provide government agencies and transit authorities with programs designed to help them control fuel-related expenses, manage fleets, and manage environmental compliance. Mansfield provides:

- Bulk fuel supply
- Inventory management
- Asset tracking and Historical monitoring
- Universal fleet cards
- Construction management
- Facility management
- Web reporting

Also, we offer indexed (OPIS, Platts, and NYMEX) pricing programs and Fixed/Forward pricing options to meet your budget.

### Supporting Your Department

Many departments within government agencies are involved in the fuel management process, including purchasing, fleet operation, finance, and equipment maintenance. At Mansfield, we can assist each of these departments and design a customized program to support your agency's fuel needs.
