

## Commercial & Industrial

Mansfield offers solutions to the toughest fuel supply and service questions facing commercial and industrial businesses today, such as:

- How do you extend fuel procurement best practices to all of your locations nationwide?
- How do you leverage your overall buying power with OPIS or Platts Indexed Contracts for all of your locations?
- How do you get rid of the phone/fax/paper based processes often associated with local fuel distributors while still ensuring you have reliable supply and support for your sites?
- How do you reduce the number of vendors and suppliers you administer and support in your accounting and procurement departments while ensuring competitive fuel pricing, local support, and nationwide automation?

The Mansfield Network is the answer - Finally, A nationwide solution to fuel supply, distribution, and delivery that covers every site and every size tank across all of your locations.
